Greetings from abroad!!  
Get inspired!!

## Summer School in Slovenia

• **Krämer Manuela** | BA Wirtschaftsberatung | July 2015 | University of Ljubljana

Ljubljana Summer School gave me the opportunity to learn more about new cultures by interacting with the students of different countries from all over the world. Ljubljana Summer School is a definition of having fun while studying. The location is really great for a summer on the Mediterranean with a lot to offer in the surrounding area.

I appreciate how helpful and organised the staff was and would recommend this programme to students in my country, especially if it is their first time abroad.
